

SITUATION	SOLUTION	FEED FORM	FEATURES/BENEFITS
<b>RECREATIONAL HORSE</b>	Omolene #100 <sup>®</sup> Strategy <sup>®</sup> GX Strategy <sup>®</sup> Healthy Edge <sup>®</sup>	Sweet Feed Pelleted Pelleted/Extruded Mix	Balanced concentrates that provide 100% of the required vitamins and minerals (per the National Research Council) when fed as directed.
	Enrich 32 <sup>®</sup> Enrich 12 <sup>®</sup>	Pelleted Supplement Pelleted Supplement	High quality protein, vitamin and mineral supplements to balance forage diets for active pleasure horses not needing additional calories provided by a fortified feed.
	Equine Adult <sup>®</sup> Horse Chow #100 <sup>®</sup>	Complete Mix Complete Pellet	Contains built-in roughage to supply 100% complete, balanced nutrition. Eliminates the variability of pasture and hay.
<b>PERFORMANCE</b>	Strategy <sup>®</sup> Healthy Edge <sup>®</sup>	Pelleted/Extruded Mix	High-fat, nutritionally balanced diet for horses in light to moderate work with lower calorie requirements. Contains digestible fibers including beet pulp, multiple fat sources, and controlled starch and sugars.
	Race Ready <sup>®</sup> Omolene #200 <sup>®</sup> Omolene #500 <sup>®</sup> Strategy <sup>®</sup> GX	Sweet/Extruded Mix Sweet/Extruded Mix Sweet/Extruded Mix Pelleted	These feeds offer a range of protein, fat and soluble carbohydrate levels to provide choices based on their particular athletic activity. All these feeds provide proper levels of calories, protein, vitamins and minerals to help support muscle repair and endurance. Added fat helps improve hair coat and body condition as well as stamina allowing horses to work longer.
	Ultium <sup>®</sup> Competition	Pelleted/Extruded Mix	Patented formula for the very hard working horse that requires large amounts of calories yet needs improved mental focus. Provides more calories from fat and fiber and less from starch and sugar. Moderate protein for less metabolic burden but enhanced amino acid balance for muscle repair and function.
	Amplify <sup>®</sup> Supplement	Extruded Nugget	High fat, high calorie supplement that contains balanced vitamins and minerals. The 30% fat from rice bran, flax seed and a blend of vegetable oils provides efficient calories and essential fatty acids for weight gain, improved performance and hair coat.
	Omolene #400 <sup>®</sup>	Complete Mix	Complete feed with high quality fiber including beet pulp. May be used to replace part or all hay when necessary. Specially formulated for horses prone to respiratory distress from sensitivity to dust and molds found in hay.
	Athlete <sup>®</sup> Supplement	Extruded Nugget	This supplement provides a combination of fat and soluble carbohydrates to fuel anaerobic work. Nutritionally balanced to maintain body condition and hair coat.
<b>BREEDING STALLIONS</b>	Omolene #200 <sup>®</sup> Strategy <sup>®</sup> GX Horse Chow #200 <sup>®</sup>	Sweet/Extruded Mix Pelleted Complete Pellet	When fed as directed, these diets contain the proper balance of nutrients to support fertility and maintain body condition through the demands of breeding season.
<b>PREGNANT MARE</b>	Ultium <sup>®</sup> Growth	Pelleted/Extruded Mix	Unique formulation high in fat and fiber to provide a high calorie, nutrient dense feed for broodmares. Balanced protein, vitamins and minerals to ensure proper fetal stores during gestation.
	Strategy <sup>®</sup> GX Omolene #200 <sup>®</sup>	Pelleted Sweet/Extruded Mix	Provide all the nutrition a broodmare needs to grow a healthy foal. Contain important nutrients such as calcium, phosphorus, lysine, copper, zinc, selenium and vitamin E.
	Equine Senior <sup>®</sup>	Complete Mix	Gives the aging mare all she needs to raise a healthy foal. Can reduce or even eliminate forages from her diet which may be important for the mare in late gestation with little room in her digestive tract for bulk. Use if dental problems exist and forages can not be chewed.
	Enrich 32 <sup>®</sup> Enrich 12 <sup>®</sup>	Pelleted Supplement Pelleted Supplement	Ideal for broodmares who are maintaining their body condition on hay or pasture in the first two stages of gestation. Provide a proper balance of protein, vitamins and minerals without excess calories.
<b>LACTATING MARE</b>	Ultium <sup>®</sup> Growth	Pelleted/Extruded Mix	Unique formulation high in fat and fiber to provide a high calorie, nutrient dense feed for lactating mares to help maintain healthy body weight and condition. Balanced protein, vitamins and minerals to ensure proper milk nutrient levels during lactation.
	Omolene #300 <sup>®</sup> Omolene #200 <sup>®</sup> Strategy <sup>®</sup> GX	Sweet/Extruded Mix Sweet/Extruded Mix Pelleted	Maintain your mare at a high nutritional plane to support re-breeding and milk production to ensure optimal foal growth and development.
<b>NURSING FOAL</b>	Omolene #300 <sup>®</sup> Ultium <sup>®</sup> Growth Strategy <sup>®</sup> GX	Sweet/Extruded Mix Pelleted/Extruded Mix Pelleted	Provide a balanced diet with proper levels of protein, vitamins, minerals and energy for optimum early development when fed as recommended. Can be fed to both mare and foal.
<b>WEANLING TO YEARLING</b>	Ultium <sup>®</sup> Growth	Pelleted/Extruded Mix	Unique formulation high in fat and fiber to provide a high calorie, nutrient dense feed for growing horses to help maintain healthy body weight and condition. Balanced amino acids, vitamins and minerals to support healthy muscle and bone development.
	Omolene #300 <sup>®</sup> Strategy <sup>®</sup> GX	Sweet/Extruded Mix Pelleted	Provide the essential nutrients growing foals require, especially calcium, phosphorus, lysine, copper, zinc, selenium and vitamin E for proper growth and development.
	Equine Junior <sup>®</sup>	Complete Mix	Can be fed to replace hay when quality hay is unavailable. Eliminates the nutritional variations found in forages while providing balanced nutrition to support growth and development.
	Enrich 32 <sup>®</sup>	Pelleted Supplement	Excellent for rapidly growing youngsters eating free-choice hay or pasture and not needing calories associated with other feeds. Provides essential nutrients for growth and development with fewer calories to support slower growth rates.
<b>YEARLINGS TO 2 YEARS OLD</b>	Omolene #200 <sup>®</sup> Strategy <sup>®</sup> GX Ultium <sup>®</sup> Growth	Sweet/Extruded Mix Pelleted Pelleted/Extruded Mix	Provide the essential protein, energy, minerals and vitamins required by young growing horses.
	Enrich 32 <sup>®</sup>	Pelleted Supplement	High quality protein, vitamin and mineral supplement to fortify forage and unfortified grains with added lysine for efficient growth and development.
	Equine Junior <sup>®</sup>	Complete Mix	Can be fed to replace hay when quality hay is unavailable. Eliminates the nutritional variations found in forages while providing balanced nutrition to support growth and development.

SITUATION	SOLUTION	FEED FORM	FEATURES/BENEFITS
<b>OLDER HORSE*</b> *Approximately 16 years and up	Equine Senior®	Complete Mix	Provides 100% of the nutrients required for senior horses. A special blend of fiber sources, including beet pulp and top-quality hay built in, helps senior horses get the fiber they need when dental problems or no teeth prevent them from chewing/digesting forage.
<b>OBESITY - EASY KEEPERS</b> Note: Recommend veterinary visit to check for metabolic disorders.	Equine Adult® Horse Chow #100®	Complete Mix Complete Pellet	Top quality hay built in. These nutritionally complete feeds replace some or all of hay to allow total control of your horse's calorie intake.
	Enrich 32® Enrich 12®	Pelleted Supplement Pelleted Supplement	Fortifies the diet with needed protein, vitamins and minerals for hair coat and hoof quality without unnecessary calories. These formulas contain no corn or oats.
	WellSolve W/C®	Extruded Particle	This exceptional weight loss formula provides a nutritionally balanced diet with fewer calories (900 Calories per pound) allowing you to feed normal meal sizes to satisfy your horse's need to chew. Supports loss of body fat, while maintaining muscle mass, hair coat, skin and hoof health.
	Free Balance® 12:12 Vitamin and Mineral	Granular Supplement	Vitamin and mineral supplement with Granular Technology Delivery System for free choice delivery of essential nutrients (to be fed with good quality hay or pasture).
<b>CARB-SENSITIVE HORSES</b> Note: Recommend veterinary visit to monitor health issues.	WellSolve L/S®	Pelleted	This formula provides an exceptional nutritional balance to support muscle, skin, hair coat and hoof health in a very low soluble carbohydrate formula for horses with extreme sensitivity to dietary starch and sugar. Heavily researched diet, free of grains and molasses, with guaranteed maximum of 11% starch and sugars.
	Ultium® Competition	Pelleted/Extruded Mix	This low starch and sugar formula may help horses that would benefit from a very high calorie, high fat diet formula that is lower in soluble carbohydrates.
	Enrich 32®	Pelleted Supplement	May help horses that would benefit from a lower soluble carbohydrate diet that is also lower in overall calories. This formula contains no corn or oats and combines a balance of protein, vitamins and minerals.
<b>UNDERWEIGHT HORSES</b> Recommend veterinary visit to check for dental, parasite or other health problems.	Omolene #200® Omolene #500® Strategy® GX	Sweet/Extruded Mix Sweet/Extruded Mix Pelleted	Provide a dense source of highly digestible calories for improved body condition and performance. Note: Extremely palatable, even the pickiest horses enjoy.
	Ultium® Competition	Pelleted/Extruded Mix	Patented formula with multiple sources of highly digestible calories that will help hard keepers improve condition with less volume of feed than other products.
	Amplify® Supplement	Extruded Nugget	High fat, high calorie supplement that contains balanced vitamins and minerals. The 30% fat from rice bran, flax seed and a blend of vegetable oils provides efficient calories and essential fatty acids for weight gain, improved performance and hair coat.
	Athlete® Supplement	Extruded Nugget	Nutritionally balanced 14% fat, quality protein supplement with a moderate starch level to support weight gain and performance.
<b>PONIES/MINIATURES</b>	Equine Junior® Equine Senior®	Complete Mix Complete Mix	Highly digestible complete feeds (hay built in) for either the underweight young or older horse. Equine Senior® can be fed to horses 2 years and older (may need to increase feed by as much as 10%).
	Omolene #100® Omolene #200® Omolene #300® Strategy® Healthy Edge® Strategy® GX	Sweet Feed Sweet/Extruded Mix Sweet/Extruded Mix Pelleted/Extruded Mix Pelleted	Provide proper balance of nutrients to meet requirements of the different lifestyles of ponies and miniatures as in larger breeds. Care must be taken not to overfeed as ponies and miniatures may be prone to excessive weight gain.
	Equine Adult® Horse Chow #100®	Complete Mix Complete Mix	Provide 100% of the nutrients and roughage required for ponies and miniatures.
	Enrich 32® Enrich 12®	Pelleted Supplement Pelleted Supplement	Fortify the diet with needed protein, vitamins and minerals for health, hair coat and hoof quality without the extra calories.
	<b>DRAFT HORSES</b>	Omolene #100® Strategy® Healthy Edge® Equine Adult® Horse Chow #100®	Sweet Feed Pelleted/Extruded Mix Complete Mix Complete Pellet
Ultium® Competition Strategy® GX Omolene #200® Omolene #500®		Pelleted/Extruded Mix Pelleted Sweet/Extruded Mix Sweet/Extruded Mix	Provide the added energy required for pulling, showing and breeding. Gives your horse power when it's needed the most.
Enrich 32® Enrich 12®		Pelleted Supplement Pelleted Supplement	Fortify the diet with needed protein, vitamins and minerals for hair coat and hoof quality without excessive additional calories.
<b>HEAVE-PRONE OR ALLERGIC HORSES</b>		Omolene #400®	Complete Mix
	Equine Senior®	Complete Mix	Provides 100% of the nutrients required. A special blend of fiber sources, including beet pulp and top-quality hay built in, helps horses get the fiber they need. Reduces the need to feed additional roughages that may have high levels of dust and mold.

Other Special Needs such as Insulin Resistance, Cushing's Syndrome (PPID), Laminitis and Metabolic Syndrome, see your Purina® Feed Dealer or Equine Specialist.
